

Description

Renovating shelters, historic features and general infrastructure of Denver’s unique mountain park system addresses a critical system need while providing opportunities for potential funding partners, including the Denver Mountain Park Foundation’s pledged funding for this effort. Bringing these facilities up to modern standards will ensure the preservation of these historic resources for the next generation.

DPR Priority Request	Total Request
\$2.0 Million	\$4.5 Million

Project Details	
Criteria	Master Plan; Deferred maintenance; Cost
Implementation period	12 – 48 months
Est. annual O&M costs	N/A

Description

Renovating the historic barracks, bunkhouses, and general infrastructure at the Morrison Civilian Conservation Corps (CCC) Camp and Katherine Craig facility is critical to ensuring the continued viability of this nationally recognized historic camp. This project provides foundational funding to allow an extremely beneficial partnership opportunity that can assist in the continued restoration of these facilities while also activating them with youth career training and education activities.

DPR Priority Request	Total Request
\$4.0 Million	\$6.5 Million

Project Details	
Criteria	Master Plan; Deferred maintenance; Cost
Implementation period	24-48 months
